Lippincott Advanced Skills For Nursing Assistants: A Humanistic Approach To Caregiving

Synopsis

This text builds on the basic concepts and skills that the nursing assistant has already mastered. Recognizing that the students using this text have already completed their basic nursing assisting training and may have already been working in the profession, this text does not repeat information that is part of the basic nursing assistant training. Rather, this textbook is meant to be used in conjunction with, or as a follow-up to, a "basic" nursing assistant textbook, such as Lippincott's Textbook for Nursing Assistants.

Customer Reviews

This is the worst textbook I have ever purchased on Kindle. There are no page numbers so if you are in class, you will have no idea what page your teacher is referancing. None of the tables or charts are readable, and the digital book has lost 80% of the printed books format. What a waste of time and money.

Book has all the information i need to be sucessful. I don't like the dvd it could either just be eliminated completely or change it so when you use it, it is more friendly to use.

Perfect as described. Bang for your buck! Would recommend and use again.
