This new amazing spider man is great. Both volume 1 and 2. I will be rereading this for years to come. It is finally great to Spidey where he deserves to be...on top making the world a better place. Forgive the formatting, this was typed on the kindle fire.

I love seeing Peter Parker globetrotting and finally using that big brain of his. That was always one of the most frustrating thing I found about when the character worked for the Daily Bugle. Say what you will about Dan Slott but he's done a great job of modernizing the character while still keeping Peter pure to his roots. In this volume, Spider-Man takes on Mr. Negative in China and the Scorpio saga from volume 1 comes to a climax.

Pretty good! A lot better than the first volume, and I enjoyed the appearance of Cloak and Dagger, but still that high tech gadget stuff for Spider Man that I really dislike. Overall decent though.

Nice story but I did not like the art in first 3 issues but after the first 3 issues it goes back to the same art as the first volume

One of the primary reasons I love this run is the newfound respect Peter has earned in regards to both his genius and his work as one of the greatest superheroes. More please
