Customer Reviews

This book is so obsolete, it's not even funny! I don't believe it has ever been updated since first published. There are terms in there that no one even talks about or uses now... especially in reference to computers.If and when they ever do revise this, I wish it would explain why the correct answer is what it is... except of course the pretty obvious ones that don't require it.I haven't taken the test yet but I don't feel this book will help me at all. Much too expensive already as it is.

I purchased this book to study from for a civil service exam administered by the State of New Jersey. I can honestly say that nothing in this book was on that particular exam, so if you ever taking a test in NJ for an AA type title this book isn't for you.

I got what I ordered quickly. Wasn't exactly what I needed for the test I took, but it was exactly what I ordered
