The Annotated Alice: The Definitive Edition

Synopsis

The culmination of a lifetime of scholarship, *The Annotated Alice* is a landmark event in the rich history of Lewis Carroll and cause to celebrate the remarkable career of Martin Gardner. For over half a century, Martin Gardner has established himself as one of the world's leading authorities on Lewis Carroll. His *Annotated Alice*, first published in 1959, has over half a million copies in print around the world and is beloved by both families and scholarsâ•for it was Gardner who first decoded many of the mathematical riddles and wordplay that lay ingeniously embedded in Carroll's two classic stories, *Alice's Adventures in Wonderland* and *Through the Looking Glass*. Forty years after this groundbreaking publication, Norton is proud to publish the Definitive Edition of *The Annotated Alice*, a work that combines the notes of Gardner's 1959 edition with his 1990 volume, *More Annotated Alice*, as well as additional discoveries drawn from Gardner's encyclopedic knowledge of the texts. Illustrated with John Tenniel's classic, beloved artâ•along with many recently discovered Tenniel pencil sketchesâ•The *Annotated Alice* will be Gardner's most beautiful and enduring tribute to Carroll's masterpieces yet. Color, two-tone, and black-and-white photos and illustrations throughout

Book Information

Hardcover: 352 pages

Publisher: W. W. Norton & Company; Upd Sub edition (November 17, 1999)

Language: English

ISBN-10: 0393048470

ISBN-13: 978-0393048476

Product Dimensions: 8.9 x 1.1 x 10.3 inches

Shipping Weight: 2.4 pounds

Customer Reviews

My first exposure to Lewis Carroll's classic children's story was through the 1951 Disney film adaptation "Alice in Wonderland," which I watched repeatedly as a child. The creative quality of the story never failed to fascinate me, and I kept going back despite my deep-rooted terror of the

frightful Queen of Hearts, who always gave me nightmares! However, it was not until recently, as an adult, that I ever picked up the book/s upon which that film was based. In some ways I wish I had read it when I was younger, as the book certainly makes a great deal more sense than the movie does (as much sense as a story of this sort can, anyhow), but thankfully this book is unique in that it is just as enjoyable for adults as for children. The story is actually spread across two books, here contained in a single volume. "Alice's Adventures in Wonderland" was first published in 1865 and relates the events that take place after young Alice falls asleep during her lessons and dreams of following a white rabbit down a rabbit hole. Alice encounters all manner of strange creatures in her dream, and finds herself in all sorts of curious predicaments where common sense fails and the nonsensical comes to be expected. There is no central, concrete storyline, but rather Alice moves rapidly from one bizarre situation to the next before waking once more and relating the whole adventure to her sister. The second of the two books, "Through the Looking-Glass and What Alice Found There," appeared in 1871 and is very similar in nature to the first, though having a slightly different plot. Here Alice steps through an ordinary looking-glass one day, only to find herself in a world where, if you wish to get anywhere, you must walk in the opposite direction!
