## Customer Reviews

If you want to LARP with Garou and other shapeshifters, this is a necessary supplement.

Unfortunately, it is full of errors and internal contradictions as well as some \_extremely\_ bad mechanics. With moderate effort this can be cleaned up into a respectable and usable book, but it really needed to have been playtested and edited a lot better.

Thankfully, the much better thought-out and edited Laws of the Wild Revised has come out. Don't bother with this edition.

this book is great all around. for being small it is not only a great reference, but also a a great guide for beginners. a must have for begining MET or LARP players.
