Witchcraft: A Handbook Of Magic Spells And Potions

Synopsis

A must-have volume for any occultist's library. Tap into the magic all around you with *Witchcraft*, an illustrated guide to ancient potions, spells, chants, rituals, and incantations from around the world. Learn how to form a spirit circle with coven members, what instruments you need for your craft, special conjurations for each day of the week, and hundreds of crafty spells and potions that will allow you to:

- Banish headaches
- Keep your home safe
- Envision your future spouse
- Win riches while gambling
- Communicate with animals
- Conceive a child
- Summon the dead
- Make it snow
- Separate lovers
- Know your future
- Make someone fall in love
- Dream extraordinary dreams
- See in the dark
- Drive away beasts
- Cause a lost love to return
- Read minds
- Delay death
- Make a foe suffer
- Become invisible

And much, much more! With stunning linoleum-cut illustrations by artist Melissa West that bring the magic of the past to life, this comprehensive compendium is also a delightful page-turner that's full of unexpected treasures. Place it in a sacred place in your home - and make sure no enemies find it to access its inestimable powers!

Customer Reviews

I love the fact that this book has spells from many different cultures and sects; it emphasizes the fact that magical works have been thought possible by so many people over the years. I like how it is organized and the layout is lovely! Would recommend for anyone interested in the occult wanting a basic introduction.

A lot of the spells are impractical and pretty silly. To me this book is more of fairy tale witch craft and can't be taken seriously. Glad I got it on sale with a discount. Look at the photo I added. Nonsense and not worth money...any book that has a curse to hurt an unborn child shouldn't even be in print. This is fairy tale movie boogeyman spells. Lol...good luck!

Such a beautiful cover and the pictures inside are lovely as well. Spells and chants are noted from different cultures and areas of the globe and it's quite refreshing to see that. Yes, the ingredients listed in some spells are a bit impossible to come by, but it's fun to read.

I was hoping it would go in depth of preparation for a ritual or even circle casting, but clearly this book is for advanced people and not sure I'm comfortable performing a spell that would harm an unborn child. ^_

This book is a joke. If your looking for actual rituals or spells, this book is not for you. If your looking for a work of fiction trying to be passed off as the real deal, buy it. Its obvious who this book is marketed to, teenage "witches" or dabblers in magick who do not understand the first thing about actual occultism, and doesn't really care to learn. If your looking for real magick, there are so many other great books written on the subject for beginners. Don't waste your money on this silliness.

I am not sure why but I was expecting more from this book. I mean, who the f is going to obtain an ant hill for memory loss or get rabbit ears :/ just terrible. These are so basic and silly. Laughable really.

This book isn't exactly a serious book about the practice, but it is rich with information that one could incorporate some of the lore into their own spellcraft and practices. I do love that it was released in a collectible hardcover edition, with the book's title beautifully embossed in gold foil.

Wonderful collection of many different spells, omens, potions, etc. from so many different sources. Nice to have them all in one book. Easy to read print & exceptional artwork. I enjoyed opening the book at any point & reading. This will make a good gift for so many of my friends.
